THE BELOW APPLIES TO COMPLETED PROJECTS

All available final performance scores for all contracts in the past 10 years are used to determine the median. The same median is used for all Class of Work calculations.
 A median performance score of 80 is neutral - no performance increase or decrease to SCL.

If no performance scores are available, a score of 80 is assumed.

Formula for Performance Modifier = (Median/80) x (Calculated SCL with Inflation) 5% inflation is not compounded.

If median is over 80 and current SCL is higher than calculated value, SCL will not be reduced.

If median is below 80, SCL will be set at calculated value regardless of current SCL, which may substantially reduce the SCL.

Final Performance Scores

| Class of Work | Year of Largest Contract in Class of Work | Value of Largest Contract in Class of Work | Calculated 2019 SCL w/5% Inflation per Year | Calculated 2019 SCL with Performance Modifier | Action |

FOR BUSINESSES AND LOWER INCOME PERSONS

- A. The work to be done under this contract is subject to the requirements of section 3 of the Housing and Urban Development Act OF 1968, as amended, 12 U.S.C. 1701u (section 3). The purpose of section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons who are recipients of HUD assistance for housing.
- B. The parties to this contract agree to comply with HUD's regulations in 24 CFR part 135, which implement section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the part 135 regulations.
- C. The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the contractor's commitments under this section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.
- D. The contractor agrees to include this section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.
- E. The contractor will certify that any vacant employment positions, including training positions, that are filled
 - 1. after the contractor is selected but before the contract is executed, and

2. with persons other than those to whom the regulations of 24 CFR part 135 require employment opportunities to be directed, were not filled to circumvent the contractor's obligations under 24 CFR part 135.
- F. Non compliance with HUD's regulations in 24 CFR part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.
- G. With respect to work performed in connection with section 3 covered Indian housing assistance, section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e) also applies to the work to be performed under this contract. Section 7(b) requires that to the greatest extent feasible
1. preferences and opportunities for training and employment shall be given to Indians, and
 2. preferences in the award of contracts and subcontracts shall be given to Indian organizations and Indian-owned Economic Enterprises. Parties to this contract that are subject to the provisions of section 3 and section 7(b) agree to comply with section 3 to the maximum extent feasible, but not in derogation of compliance with section 7(b).
