

To whom it may concern,

I Jason Heilman would like to propose to purchase a section of 5 Williams st. between 9 Williams st and the Town Hall. I believe the purchase would benefit my property as well as benefit the town. My intention would be adding two parking spaces to our building and maintaining the over grown portion of the lot. The reasons I believe that there would be mutual benefits for both parties are as follows:

- Creating two private parking spaces relieving pressure on public parking.
- By maintaining the lot we will add aesthetics view to both our property and the town.
- The purchase will create both sale revenue and additional tax revenue for the town.
- It will be a pivotal part in our over all plan to improve our buildings over all aesthetic. I will bring images of our proposed building improvements to our meeting.

The purposed parcel I purpose to purchase is a 50' foot by 19' foot area adjacent to William st. images are attached.

Sincerely,

Jason Heilman / Manager Shelburne Falls Fire House Studios
